

# Décor Insert w/ Flexible Opening

DataComm Electronics' patented Décor Insert with Flexible Opening is used to install low voltage cables behind your HDTV, amplifier or other A/V devices. The Décor Insert with Flexible Opening is designed to be installed into a low voltage mounting bracket (Part # 20-511X, sold-separately) that is installed into the wall.

## Features

- Low profile design fits behind the industry's thinnest mounts and TV's
- Conceal multiple low voltage cables behind your flat panel TV
- Easily holds up 4 cables
- Flexible opening helps keep low-voltage pass through area covered
- Perfect for eliminating connections at the wall
- Quick and easy to install
- Mounts to a standard low voltage mounting ring, old work ring and mud ring

Installed with Single Gang Décor Wall Plate (Part # 20-511X)
