

Mid-Size and Full-Size Rough-In Bracket

DataComm Electronics' Mid-Size and Full-Sized Rough-In Bracket are designed for use in new construction applications. The Rough-In Bracket allows for pre-wiring with many of DataComm's Low Voltage and Power Cable Plates. It works well for both residential and commercial applications.

Features

- Sturdy 22GA Galvanized Steel Construction
- Designed to be installed onto standard 16 inch on center metal or wood studs
- Steel Outlet Box* Included:
 - 2¹/₄" Single Gang
 - Contains 8 knockouts for conduit or armored cable mounting options
- Built-in mud ring for drywall
- Works well for both residential (15A) and commercial (20A) applications
- Reversible for receptacle placement on top or bottom
- Low Profile design fits behind the industry's thinnest mounts, TV's and other wall mounted displays
- Conceal multiple A/V cables behind your HDTV or other display unit
- Quick and easy install

Compatibility

Part #45-0101

Use the Mid-Size Rough-In Bracket in conjunction with the Recessed Low Voltage Mid-Size Plate:

- with Duplex Receptacle ([Part #45-0071-WH](#))
- with Duplex Surge Suppressor ([Part #45-0081-WH](#))
- with 20A Duplex Receptacle ([Part #45-0072-WH](#))

Part #45-0102

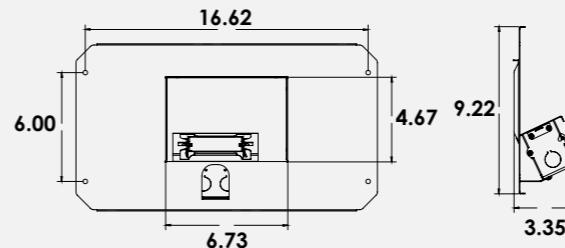

Use the Full-Size Rough-in Bracket in conjunction with the Recessed Low Voltage Media Plate:

- with Duplex Receptacle ([Part #45-0031-WH](#))
- with Duplex Surge Suppressor ([Part #45-0041-WH](#))
- with 20A Duplex Receptacle ([Part #45-0032-WH](#))

And the Expandle Media Box:

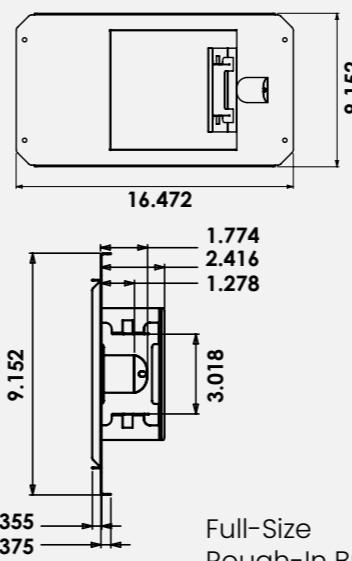

- with Duplex Receptacle ([Part #45-0051-WH](#))
- with Surge Suppressor ([Part #45-0061-WH](#))
