

# Low Voltage Brackets (Old Work)

## "Feature Sheet"

**1-Gang**  
P/N: 60-0021-S

**2-Gang**  
P/N: 60-0022-S

DataComm low voltage old work brackets provide a secure mounting solution for low-voltage devices in existing walls. Designed for retrofit applications, these brackets install easily in drywall without the need for stud access, creating a clean opening for AV, data, and communication wall plates. Ideal for residential and commercial low-voltage installations.

### Key Features:

- **Designed for retrofit ("old work") low-voltage installations**
- **Available in 1-gang and 2-gang configurations**
- **Installs quickly in drywall without stud access**
- **Provides secure mounting for low-voltage wall plates and devices**
- **Ideal for AV, data, and communication applications**
- **Durable construction for reliable, long-term performance**
- **Suitable for residential and commercial applications**
- **ETL Listed to UL Standards**
