Mid-Size Keystone Plates
"Feature Sheet"

P/N: 20-301X-XX

DataComm's mid-size keystone plates deliver a clean, modern look while securely housing any standard keystone insert—perfect for structured wiring, networking, and custom A/V setups.

Key Features:

- Accepts all standard keystone inserts for voice, data, and A/V connections.
- Durable ABS construction provides long-lasting performance.
- Mid-Size wall-plate footprint fits any standard low-voltage mounting bracket.
- Clean, flush appearance for a professional, finished look.
- Easy installation with included mounting screws.
