

# 1-Gang Blank Plates

## "Feature Sheet"

**P/N: 21-0022-UWH**  
**"Mid Size"**

**P/N: 21-0026-UWH**  
**"Standard Size"**

The DataComm 1-Gang Blank Plate provides a simple, professional way to cover unused low-voltage openings or electrical boxes. Ideal for both new construction and retrofit applications, this plate offers a clean, finished look while maintaining easy access for future cable upgrades or device installations. Constructed from durable, high-quality plastic, the 1-Gang Blank Plate blends seamlessly with other wall plates and devices, ensuring a consistent appearance throughout any residential or commercial installation.

## Key Features:

- Clean Finish – Covers unused openings for a neat, professional appearance.
- Durable Construction – Made from high-impact plastic to resist cracking and fading.
- Easy Installation – Mounts to any standard low-voltage bracket or electrical box.
- Versatile Use – Suitable for new construction, remodel, or service applications.
- Standard Size – Compatible with all standard 1-gang wall plate openings and devices.
- Mid Size option to cover excess drywall damage and imperfections.
- Color-Matched Design – Coordinates with other DataComm wall plates and accessories for a consistent look.
