

# 1.75 Inch Hole Saw Plate

## "Feature Sheet"

P/N: 45-0006-WH

The DataComm 1.75" Hole Saw Plate provides a clean, finished solution for routing low-voltage cables through walls and surfaces. Designed to cover standard 1.75-inch hole saw openings, this plate allows for smooth cable pass-through while protecting cables from abrasion. Ideal for AV, data, and structured wiring applications where a professional appearance is required.

### Key Features:

- Covers standard 1.75-inch hole saw openings with 2" x 2" faceplate
- Smooth, brush opening protects cable jackets from damage
- Provides a clean, professional finished appearance
- Designed for low-voltage cable pass-through applications
- Metal mounting wings molded to plate
- Durable construction for long-term performance
- ETL Listed to UL Standards
