Decora Insert w/ Brush Opening

"Feature Sheet"

P/N: 45-0019-UWH

The DataComm Decora Brush Insert provides a clean, professional solutions for routing low-voltage cables through walls while maintaining a finished appearance. Designed for use with standard Decora-style wall plates, the integrated brush insert allows HDMI, audio, network, and other low-voltage cables to pass through without requiring connections at the wall. The brush fibers help conceal the wall opening while allowing easy access for cable installation and adjustments. Its low-profile design makes it an ideal solution for residential and commercial AV installations, wall-mounted televisions, and home entertainment systems. Finished in Ultra White, it blends seamlessly with coordinating wall plates and existing décor.

Key Features:

- Decora-style design for a clean, finished appearance.
- Integrated brush opening for convenient cable routing
- Helps conceal wall openings and exposed cable entry points.
- Ideal for wall-mounted televisions and AV installations.
- Ultra White finish coordinates with matching wall plates.
